

Public Recognized as a Oklahoma Certified Healthy Business

The Oklahoma Certified Healthy Business status recognizes Oklahoma Businesses that are working to improve Oklahoma's health by providing health and wellness opportunities for their employees.

The Oklahoma Certified Healthy Business program started in 2003 by The Oklahoma Academy for State Goals, Oklahoma Turning Point Council, The State Chamber, and Oklahoma State Department of Health.

To be certified PSI had to meet specific criteria such as:

- Provide employee health screenings
- workplace health and nutrition education
- opportunities for physical exercise and activities
- management support for healthy workplace environments
- tobacco use prevention activities
- sharing wellness activities within their respective communities

Reasons to be a Certified Healthy Business

- Makes wellness in the workplace a priority
- Better health leads to better businesses
- Customer recognition
- Marketing tool for your business
